

Have a heart Mr Brumby

Victorian Catholic and government school teachers are the lowest paid in the country.

A teacher who has worked for 12 years in Victoria earns \$65,414.

If that same teacher was working in NSW they would earn \$75,352 after only nine years.

Isn't it about time you started paying our teachers properly Mr Brumby?

The Victorian Independent Education Union supports our government school colleagues' campaign for better pay and conditions for all Victorian teachers.

VIEU Fighting for the future of our profession.
